

Hacierba® 1.400.90C

ArcelorMittal

Perforated wall liner trays type C

Haironville (FR)

Surface mass

Thickness (mm)	0.75	0.88	1.00
Mass (kg/m ²)	9.20	10.80	12.30

Minimum length 1,800 mm /
Maximum length 16,000 mm
Shorter lengths up to 500 mm are available on request.

Table of use

Normal permissible loads in kN/m² depending on the spans of use for equal spans
